# NUTS

# Dried Fruits & Nuts

## ALMONDS

Our nuts are delivered from small-scale, sustainable farms and are of fantastic quality. And they have grown just for you! Our almonds are rich in taste and with a wonderful consistency that is not found in the large-scale cultivated.

*Ingredients: almonds (contains nuts).*

May contain traces of other nuts.

Weight 65 g  
Dimensions 11 × 3 × 3 cm

[Read More](#)

**SKU: 109-1**

## HAZELNUTS

Our mission is to offer you nuts without a trace of chemicals, flavor enhancers or dyes. Therefore, we are very happy to give you the chance to discover and enjoy our fantastic hazelnuts!

*Ingredients: hazelnuts (contains nuts).*

May contain traces of other nuts.

Weight 65 g  
Dimensions 11 × 3 × 3 cm

**SKU: 111-1**

# Dried Fruits & Nuts

## PISTACHIO

We're nuts about nuts! And probably a little extra crazy in our pistachios. If it is due to the characteristic taste, or because they are perfect as snacks, for cooking, in salads or baking? We can not decide!

*Ingredients: pistachio (contains nuts).*

May contain traces of other nuts.

Weight 65 g  
Dimensions 11 × 3 × 3 cm

**SKU: 108-1**

## WALNUTS

For our Walnuts to be exactly the way we want them, soil quality, altitude and the number of hours of sunshine play a big role. But the most important thing of all is the way they are cared for and taken care of by the growers. It is no wonder that our growers and farmers are our rocks!

*Ingredients: walnuts (contains nuts).*

May contain traces of other nuts.

Weight 65 g  
Dimensions 11 × 3 × 3 cm

**SKU: 110-1**

# ABOUT

## Made with passion

We at Valenlime love natural and healthful snacking. We love to produce the best fruits we can find, dry them, so we can share the joy with everyone. Our love for dried fruit and nuts blossomed because we discovered that they that nourish and refuel our bodies. Everyone wins!

The amazing fruit we dry is fair trade and harvested by farmers who care as much about great taste and good health as we do. Our way of drying fruit is special: we dry it in thin slices, since we discovered it's the best way to preserve the fruits' heavenly taste. Fruits and nuts are naturally vegan and good for us: they are free from sugar or any taste enhancers.

## There is so much behind our packaging!

While Valenlime packaging is engaging & energetic, it's also smart. Our products are always delivered in cases sealed with nitrogen.

This means that after we wash and dry the fruit using Valenlime's self-developed technology, we apply science to the mix: we remove almost all the oxygen from the packaging and instead add nitrogen. No oxygen means the fruit will stay fresh for a very long time. Opening the seal guarantees that the fruit still has that authentic aroma, flavor, and look! All this by just removing oxygen! And we designed our easy-open Valenlime packaging so it looks terrific on any table! Just remember to always recycle the cardboard and plastic so we enjoy the flavors of nature without hurting it! Whether in your home, on a picnic, or at the beach, do the following: **Open** package. **Choose** some luscious Valenlime fruit. **Enjoy** refreshing flavor. **Relax**. When finished, **Recycle!**

## Our philosophy

Valenlime uses the latest technology – not taste enhancers, to make sure the taste of the nuts and fruit we dry is absolutely incredible.

By cooperating with farmers, we gain access to fruit that is matchless in taste. We're talking fruit that's been ripened to perfection before we ever process it. This lets us focus on what really counts: the perfect taste you deserve.

Valenlime specializes in the development and research of drying techniques, and insists on outstanding quality, transportation, sales, distribution and customer service.
